Assembly and Process For Air Conditioning A Textile Machine Using A Displacement-Type Air Flow Stream" the specification of which is attached hereto in the form specified under 37 C.F.R. §1.173.

We hereby state that we have reviewed and understand the contents of the above-identified specification, including the claims of the original patent, the new claims presented in the reissue application, and the amendment to new claim 21 contained in the present response. We further acknowledge the duty to disclose to the Patent and Trademark Office all information known to us to be material to patentability as defined in 37 C.F.R. §1.56.

Every error in the patent which was corrected in the present reissue application, and is not covered by the prior declaration submitted in this application, arose without any deceptive intention on the part of the applicant. Specifically, we declare that the word "the" was inadvertently omitted before "air distributor" in section (d) of new claim 21.

We hereby declare that all statements made hereby of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
